

About Cyberplat

- ❖ CyberPlat Worldwide is a retail payment processing service provider with operations in Russia, CIS, Europe and now in India
- ❖ In India its launched in 2009 and today they have direct connectivity with almost all the major Mobiles and all the DTH service providers
- ❖ They have over 100,000+ retail touch points through 150+B2B channel partners across various retail verticals and online payment portals

Why through Cyberplat

Product Features	Advantage	Product Benefits
Multiple recharges	It has pioneered the idea and execution of electronic virtual distribution of Prepaid airtime, on behalf all major mobile operators, Pre- Paid DTH , on behalf of all DTH service providers Pan India	Customer can choose from the list of recharges which is available in the portal
Single Point Pre Paid Recharge	Both mobile and DTH recharges done	Incase customer is also using DTH, he can opt to buy both the recharges from the same kiosk.
Save time and money	Both services can be recharged from a nearest Sahaj Centers	This saves his time and expenditure of traveling to two different places for the recharges
Provides wide range of services	Along with mobile and DTH recharge, mobile top us also done	Cyberplat provides a wide range of recharge services (top up plans) in mobile & DTH and hence a customer can opt for recharging from that kiosk for any service provider he wants to & any top ups which might not be available to the retail outlets as they keep more the high selling top ups only
